The Doersoms were here to see if anything has been done with the stop sign on Woods Rd and Mountain Road. They brought some pictures of the corner of Woods Road and Mountain Road explaining how they cannot see pulling out onto the road. Kingsley went out with Keith the other day and he realized that it is a difficult intersection with people not stopping. Karen is very concerned that someone may get hurt. Kingsley explained to her that he contacted someone from the state and wanted to see if they could put a police car at the intersection to see if it would warn the people to stop but they would not do it. He also said he is going to talk to the township engineers to see if there is another study that could be done to see if there is an improvement that could improve the safety of the intersection. Kingsley stated to her that they are taking all the avenues that they can and that the Board is working on it. He will bring back more information at the next meeting.

Correspondence: Kingsley looked through the correspondence and made mention of what was important.

Gym: Lauren was present to talk about the gym. Lauren mentioned that the website needs to be renewed and that it would be around \$350.00. Lauren is still waiting for the new rental agreement so she can start to advertise it on Facebook and put up the rules at the gym.

Old Business: The traffic study on the intersection of Whiskey Run Road and 997 was presented. The study proved that a multi way stop control would help the intersection. The Board feels if they put stop signs up it is going to be hard for the big trucks to stop at the signs. Kingsley made a motion accept the traffic study for a 4 way stop sign Heather and Heid denied the motion. The motion did not pass.
